TECHNICAL SPECIFICATIONS

Operating Voltage	110w / 60Hz
Power Consumption	200w - 250w
Chair Weight	169 lbs
Recline Angle	115 - 190 Degrees
Massage Stroke Length	27 inches
Upright Dimensions	W35" x D51" x H46"
Recline Dimensions	W35" x D67" x H25"
User Weight Limit	265 lbs
Number of Motors	5

Caution: This massage chair delivers intense therapeutic pressure to muscles, joints and skeletal tissues. Persons suffering from injury, illness, or chronic pain should consult their physician before using this device

Experience the World's Best Zero Gravity Massage Chair

No other massage chair can bring you the unique benefits of inversion therapy and Zero Gravity like this one. Studies of NASA astronauts in a gravity-free environment reveal that, in its most relaxed state, the human body assumes a trunk-to-thigh angle of 128 degrees. Independent studies have found that by approximating this natural body position, you can relieve tension in key muscle groups by as much as 75%, and experience a wealth of other unique health benefits. The new PHP 2022 combines Zero Gravity, inversion therapy, reflexology and deep tissue shiatsu massage, with a comfortable and contemporary design to complement the styling of any home or business.

EXPERIENCE ZERO GRAVITY

The PHP-2022's Zero Gravity position adds a powerful new dimension to your massage. In the Zero Gravity position your body assumes a perfectly neutral posture. It is used by NASA to diminish the stress on the astronaut's spines during take-off, but it works just as well here on earth! The neutral Zero Gravity position not only improves circulation by elevating your legs and feet, it also allows muscles to fully relax. When your muscles are at rest they are more pliable and easier to manipulate. This allows the massage rollers to dig deep into hard working muscles, providing a massage like nothing else on the market. By taking stress off the spine, the Zero Gravity position also allows your chest to expand fully with each breath, increasing oxygen in your bloodstream and helping your body to heal faster.

EXPERIENCE INVERSION THERAPY

The Greeks, as early as 400 B.C., documented the effect of inversion therapy. Inversion therapy takes the weight off your back and helps elongate your spine, increasing the space between vertebra, which relieves pressure on discs, ligaments and nerve roots.

SENSORY TOUCH ALGORITHMS (STA)

STA precisely simulate the hand movements of a massage therapist, providing Shiatsu "finger pressure," Deep Tissue or Swedish massage styles in four motion modes.

ROLLING

Rolling improves your mobility and decreases tension by gently stretching your spine, one vertebra at a time. This smoothing motion allows your spine to decompress, relieving pressure on nerve endings and relaxing your back muscles.

KNEADING

The PHP 2022's four massage rollers move in an invigorating circular motion to work knots, tension and stress out of your muscles. This Shiatsu massage motion will leave you feeling rejuvenated and energized.

TAPPING

Tapping patterns work with pinpoint accuracy, sending tension-breaking waves deep into muscle areas. This technique dissipates knots and tension well into your tissues, and increases muscular circulation and healing.

INTENSE MULTI-DIMENSIONAL MASSAGE

Kneading and tapping patterns are used together in specific sequences to provide an intense massage that works the entire back. You will feel as if not one but two massage therapists are working on your back simultaneously, allowing for the most thorough and lifelike massage possible.

FULLY ROBOTIC CALF AND FOOT MASSAGE

The PHP 2022 employs a fully mechanized calf and foot massage system, with kneading and rolling massage, simulating the motion of a massage therapist's hands.

MECHANICAL SHIATSU MASSAGE

REFLEXOLOGY MASSAGE

The ancient science of reflexology is a powerful tool for healing, and it all begins with your feet. According to this ancient Eastern practice, by applying pressure to specific areas of your feet, you can affect and improve the health of your whole body. The PHP 2022's sophisticated calf and foot massage will refresh not only your hardworking legs and feet, but your entire body, as anyone who has had a good foot massage can tell you.

USER-FRIENDLY REMOTE

Get the massage you want at the touch of a button. Unwind with the PHP 2022's three auto programs. Luxuriate in Zero Gravity or even customize your own massage by positioning the rollers yourself and selecting your favorite massage mode. Only the PHP 2022 makes getting an amazing massage this easy.
